

8
9
10
execution unit to execute floating point instructions each operating on one or more floating point operands to generate a floating point result, each floating point instruction including one or more floating point fields specifying a location of each operand and result.

Claim 39, line 3, change "results" to --result--.

Claim 57, line 2, change "enable" to --enabled--.

Remarks

By the forgoing amendments, Applicant has amended claims 38, 39 and 57 of this application to correct minor errors in the claims. The amendments are made pursuant to 37 C.F.R. § 1.312 because the claims have been allowed. These changes are believed not to introduce new matter, and their entry is respectfully requested, without withdrawing the case from issue.

The Examiner is invited to call the undersigned at the telephone number indicated below if such a call would facilitate the prosecution of this application in any way.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
